

Living Well Service

Age UK Wiltshire works as part of a team of health and social care professionals within a number of GP surgeries offering holistic care and support to older people within those practices.

The purpose of the service is to ensure that there is an opportunity for older people to live a healthy and fulfilling life and we do this by:

- Having a conversation with the individual to identify what is important to them.
- Agreeing what actions need to be taken by who, that would promote a sense of health and wellbeing.
- Supporting the individual to overcome any practical difficulties they are experiencing.
- Helping the individual to access a range of activities and services that would maintain their independence within their local community.

Clients are referred to the Living Well service by one of the health and social care team members within the GP surgery. It is a timed intervention lasting approximately 6 to 12 weeks.
